

A Refreshing and Spacious Calavera Castle With Panoramic Views!

Feast your eyes on the beautiful contrast between a custom pool and the lush natural surroundings. This 5 bedroom, plus bonus room, 4 bath, 3,190 sq ft home is nestled on the edge of Calavera Nature Preserve. It features a backyard with fruit trees, several patios to savor the view and one of the most 'inviting' swimming pools in memory. There is an equally outstanding design and layout inside - with a combination of neutral and designer paint colors throughout. Downstairs there's tile floors and in the family room, solid birch hardwood. Ample living space includes a large living room, dining room and a huge family room with a cozy fireplace. There's a full bed and bath downstairs, and the guest bathroom has been completely renovated with slate tile and upgraded sink and faucets. The master suite overlooks the Calavera Nature Preserve. It's large with a huge walk-in closet and bathroom with an oversize bath and shower. You are an easy walk to award winning elementary and middle schools, and close to the Calavera Hills Community Center with an indoor sports arena, ball parks, evening classes, playground and home to the Summer Jazz Concerts in the Park. Close to freeways (I5 & 78) and all amenities (restaurants, shopping and the beach)-this home has it all!
