

Beautiful, Bright and Open...Ready to Move In!

This light and bright property will be a wonderful place to call 'home!' Located in Calavera Hills, this 2,585 sq ft home is upgraded with rich wood floors downstairs and luxurious carpeting upstairs. Well laid out with 3 bedroom + bonus room, and 3 baths, this home has a flowing and open floor plan. The dining room and family room are comfortable and spacious; both are complemented by the green beauty of the back yard landscaping. Featuring a large center island, the gourmet kitchen includes a built-in dishwasher and a breakfast area, including loads of storage space. The master suite is large, bright and along with much of the house, is nicely accented with plantation shutters. The master bath has a large walk-in closet, along with a soaking tub with jets. Entertain your family and friends with a BBQ on the stamped concrete back patio and enjoy the year-round California sunshine. When it's time to go out, you'll step into the 2(+1)-car garage and you'll be walking on clean and attractive epoxy floors. You'll be close to freeways, shopping, and the Calavera Hills Community Park where you can enjoy summer jazz concerts and year-round recreation. Plus it's an easy walk to award-winning schools.
